

Your First Choice for Landscaping in Naples FL

If you want to have a beautiful, healthy landscape at your home, then you have come to the right place. At Dome Enterprises Landscaping, we are experts at turning outdoor spaces into masterpieces. We have transformed the yards of residents all over southwest Florida with our professional and trusted landscaping solutions such as lawn maintenance, sod installation, plant installation, and design work. Our team carries out the highest quality of work that is always the first choice for landscaping in Naples FL.

Benefits of our Landscaping in Naples FL

At Dome Enterprises Landscaping, we offer affordable and effective solutions for all your landscaping needs. Since our company is so well experienced, trained, and passionate about our work, we are able to offer a huge range of services that will transform, improve, and restyle your yard. Our services for landscaping in Naples FL are highly rated, professional, and won't break the bank. Your property will reach its full potential after we have finished our work. We offer services you can trust, customer care you will love, and prices everyone can afford.

1. Lawn Maintenance

Without proper care and maintenance, your lawn will struggle to stay green, lush, and healthy. All lawns need special treatments from time to time catered to their specific needs based on factors such as soil conditions and climate. At Dome Enterprises Landscaping, we offer safe and quality lawn maintenance solutions to ensure that everyone has the kind of lawn that stays beautiful throughout the year and can be fully enjoyed in the summer. By taking advantage of our top-grade lawn maintenance options, you can have the most beautiful and lush lawn on the block.

2. Sod Installation

Having sod laid at your home will give you instant and beautiful results! In just a few hours, you have a completely transformed landscape and boasting luscious green colors! However, when considering sod at your home, the important thing is that it's installed by professionals like Dome Enterprises Landscaping, who know how to lay it correctly and ensure that everything is in place so it can grow as it should!

3. Plant Installation

Adding plants to your landscape can make a huge difference. Plants are not only great for the aesthetics of your lawn, but they can also improve the surrounding environment. Our professional landscaping in Naples FL includes plant installation of any kind! You can add dashes of stunning color to your outdoor space and experience the beauty that plants can bring.

Are your lawn applications safe for my family and pets?

To ensure your family and pets are as safe as possible, we recommend that you wait until any treatments are dried before allowing the lawn to be used. If you have grazing pets, such as rabbits, then it's best to wait up to six weeks before letting them use the lawn. However, we are happy to give you more detailed information based on the lawn treatment you're having at the time.

1. Fast Quote

Get in touch with us today for your fast and free quote! We won't keep you waiting around or make you chase us, instead, we'll get a quote sent to you right away!

2. Easy Scheduling

To ensure that you have a great experience with us, we offer an easy scheduling process where we will work around your lifestyle. Whatever time is convenient for you, is convenient for us, too!

3. Sit Back & Relax

Your landscape is in the best hands when it's with us so you can sit back and relax as our team gets to work. Instead of worrying about the work, you can look forward to seeing the results!

How many times a year do you treat the lawn?

Because everyone's lawn is different, it's best if you get in touch with us so we can give you an accurate answer based on your needs for our professional landscaping in Naples FL. Some lawns need more care and more frequent treatments than others, but we can carry out an assessment of your lawn to get you a better idea.

How do you price sod installation?

Our sod installation prices are calculated based on the job's size. Therefore, to give you an accurate price for sod installation at your home, just get in touch with us for a free quote. Once we have the information we need, we can let you know what price you should expect for all your landscaping in Naples FL.

How often should I water my sod?

When your sod is newly laid, it's vital that you water it enough for the roots to take hold. Ideally, you should water the whole area for around ten minutes twice a day. Try and water the sod when the sun isn't too hot for maximum impact. Get in touch with us if you're having any problems with your sod so we can offer practical advice based on your situation.
